

# TAX RELIEF IN THE 2016 SESSION COSTS MATTER

## Business Property Taxes

The United for Jobs Coalition supports lowering the fixed cost of doing business in Minnesota and improving Minnesota's business competitiveness by removing the automatic tax inflator and by ultimately phasing out the statewide property tax levy.

### Minnesota Commercial Property Taxes are among highest in nation

#### THE STATEWIDE PROPERTY TAX

Only businesses and cabins are required to pay a state property tax in addition to their local property taxes. The state tax totals about 30% of a business total property tax bill. Businesses pay 95% of the \$856 million tax (2015) that was first imposed in 2002 at \$592 million (cabins pay the other 5%). This tax is automatically increased every year.

#### Minnesota businesses pay a much heavier tax burden than other properties:

- Businesses have 12.4% of the total property market value but pay 32% of the total property tax.
- Businesses have an effective tax rate of 3.88%, which is the highest among property types. For example, homes are 1.30% and farms are 0.53%.
- Businesses have the highest class rate of 2.0%.

A large blue arrow pointing upwards, containing the text "IT'S A FACT!" in large, bold, yellow letters. Below this, in white text, is a paragraph: "This is a regressive tax paid by all Minnesota families. Business property taxes are ultimately paid by consumers in higher prices of goods, by employees through lower wages and by investors."

Urge Legislators and the Governor to pass tax relief in 2016 session that will support job creators and reduce an uncompetitive regressive tax by enacting meaningful reduction in the state business property tax and by removing the automatic inflator.
